Comments: Regarding the roller coaster, I am concerned about the wildlife impact. Not just with the actual infrastructure, but also the anticipated increase in foot traffic in the mountains. I'm concerned about people sticking to trails and causing more erosion to the top of the mountain and the bases. If this could be mitigated and the forest service/other trail advocates ensure the trails are maintained, this would be less of a concern to me.

Additionally, it is worth noting that I recognize the potential economic benefits of the roller coaster especially since the ski area has not been able to be open for a majority of the ski season the last few years.
