Comments: As a resident I care a lot about the environment in New Mexico.

That said. I looked at the map and proposed path for the coaster and I think it's fine. It's not super big, not super fast. Doesn't seem like it will be unsightly given where they want to do it so. I'm good with it. Magic Mountain in CA has a ton more coasters and the coyotes and natural wildlife seem fine with it out there. Yeah I'm totally ok with this.
