Title:

Comments: I am for this plan if it fits in to a long term plan to establish more biking trails on the mountain. The addition of more difficult, downhill oriented trails is of particular interest to me. It would be nice if the coaster road away from existing trails where I go to find solitude (e.g. King of the Mountain, Challenge trail) but at the end of the day if it brings more revenue to the ski area company and eventual expansion of services for other outdoor hobbies, I think it needs to happen.
