Title:

Comments: I think the construction of this "attraction" is a terrible idea! It will il be a huge negative impact on the environment and the critters in the Sandias. I live this mountain & I live the creatures that live here. Please Do Not do this! I am an avid hiker & I love the peacefulness of this wilderness. An attraction such as this will destroy this area! I know there are turkeys, deer, and bears that live & thrive here. Their lives will be negatively impacted by this coaster!
