Comments: I see Boggy Draw as a jewel that should not be taken for granted. On any given day in any season you'll see license plates from all over the country as people flock to the area to enjoy these lands in various ways. The local economy would be in a sorry state if that was to change. I've spent many hours helping build and maintain trails along with other community volunteers from SWCCO and feel that everything should be done to protect these trails. I'd also propose supporting a new trail from town as an alternative to the road which will be a dangerous place for pedestrians and cyclists with the added logging traffic.
