Comments: SMC should be a reality as soon as it can be built. The more time people spend in isolation the more external resources they will need to recover over time and this can lend itself very quickly to a distraction and an outdoor entertainment venue for the masses. I love the sanctuary of the wood as much as the next person - and the inclusion of this inside the borders of the ski area is a nice touch, but not sure it goes far enough. The mountain bikers who make the ski area more viable make this local owned business become more viable and everything we can do to support local businesses is important at this time.

There will be plenty of bleeding hearts that do not want this to happen, but it is time to let the good guys win one.
