Title:

Comments: Thank you for trying to manage and get ahead of the Beetle Kill in the Boggy Draw Recreational area. Boggy Draw trails system is one of my favorite areas to ride both on the dirt and snow, as well as to camp. I hope you work with the local trails organization to alter any existing trails that might be impacted. It would be nice to avoid heavy traffic while riding. Good luck and thank you again! A healthy forest is one that gets maintenance.
