First name: Mary

Last name: Thorsness

Organization:

Title:

Comments: I visit Dolores annually, and one of the highlights of my visit each year is a mountain bike ride (or 2 or 3!) at Boggy Draw. I understand that logging will occur in this area to support the health of the forest. Boggy Draw is a special place: I understand the importance of maintaining the forest, but worry about the potential negative impacts of that maintenance on the forest and its users. I encourage you to do all that you can to minimize those negative impacts of logging on the spectacular trails and scenery at Boggy Draw, and to make every effort to allow continued trail use as the project progresses.
