Title:

Comments: For many years, my friends and I have ridden from the 10k parking lot (south side of the road). We have ridden many trails, one of our favorites is south on 10k to the bicycle trail that goes back and forth across the ski area to the crest area.

I believe that there is room for all of us, the coaster, the bicycles, hikers and horses on these beautiful trails. We have not ever run into any bicycles and would prefer not to, but we can usually hear them before they get to us and we get off of the trail. Thank you for your consideration, Virginia S. Boawn
