Comments: I recreate in boggy draw all year and want to support protecting the environment from fire and beetlekill but please do so carefully and with respect to the many people who enjoy the area. I buy groceries in Dolores, get gas in Dolores and get food from restaurants in Dolores because of these trails. If they are ruined by logging activity I won't go there anymore. I will find somewhere else and spend my money there. Boggy draw is an amazing jewel that your are putting in peril. The trails and scenery are world class. Don't take it for granted.
