Comments: I'am one of the claim owners at Site 19 Quartzville and at Site 23 Galena. We need to have access to be able to get close to the water for parking and use of equipment. We also have people with tents that camp there that need to be out of the driving area as to put up a tent in that area would be a safety concern. We would like to see the boulders set at the edge of the river on Galena site and have gravel put in the area where the mud is. If this is not possible as claim owners we would like to gate off the area and make it available to the claim owners only. We would like to do that at the site 19 also. this is so we would be able to come in and work our claim at any time with out having someone in there to keep us form working the claim.
