Comments: I work full time for the Purgatory Ski Patrol. We know the mountain better than anyone. I view this project as needless destruction of the Ice Creek drainage.

There is already a lift to drain people out of the back side of the mountain, and an easy way down from that lift

The proposed trails are not facing a good aspect for high quality snow and have very little vertical drop, and so will be purposely avoided by the public

The ski patrol does not have any issues sweeping this area of the mountain currently

This is a "lift to nowhere" and needless destruction of our national forest. I am greatly OPPOSED
