US Forest Service

To Whom It May Concern:

This letter is to express the Greater Vail Area Chamber of Commerce's support for the Sunnyside Exploration Drilling project. We have reviewed the documents prepared for this project and would like the Forest Service to know that the Greater Vail Chamber of Commerce fully supports the proposed action.

The continuation of mining and mineral exploration activities in Southern Arizona is imperative to economic development, including job creation and tax revenue for communities such as Vail. As a rapidly growing area, we recognize that homes, technology, automobiles and hospitals, etc. can't be built without mined materials.

Again, I encourage the Forest Service to issue a prompt and favorable decision on the Sunnyside drilling project.

Sincerely,

Brad Anderson  
President/CEO  
Greater Vail Area Chamber of Commerce
