Title:

Comments: Ms Yonce & all concerned,

By all means please advance recommendations for improving this section of dangerous road. From all information relayed this should be listed as a priority project and should probably have been worked on years ago, but I know how budget restraints hinder and postpone implementation of some work. However one person, and quite possibly more, being injured or worse is not justified postponing this road work any longer, the time for remedying the situation once and for all has come. Thank you for bring this to light and best of luck on it's completion.
