Comments: As a long time volunteer for the USFS , I have to wonder why this agency is spending mass amounts of $$$ to rid public property of wild horses , housing them at another ridiculous expense when all that has to be done here or anywhere else is by using pzp darts to keep the herd at a proper level . It is also my contention that the forest service is here to PROTECT NOT DESTROY nature or wildlife and destroying is exactly what you are doing . Im embarrassed to admit to any animal lover that im involved with those that promote this disgusting practice .. USE THE DART instead of acting like you hate wildlife .
