Title:

Comments: I am writing to urge you to support the non-motorized alternative for Rapid River. This is a Wild and Scenic corridor that provides outstanding opportunities for non-motorized recreation. Motorcycles and dirtbikes are not appropriate for this corridor. The trails are narrow and erosive. Motorized use is dangerous to other users and bad for the environment of the river corridor. Turn-around points do not work. Once motor bikes are on the trail they do not stop and turn-around just because a sign says they should. It will be impossible to enforce and will not work.

Please protect this important area.

Thank-you.

Amy Haak
