Comments: I'm am very dissappointed that the AzGFD or the sheriff dept has not managed to figure this case out and protect these horses. The people of AZ want to be able to see the wild horses of AZ, it's one of the last Wild things about our state. The animals have rights to be here just as other animals. I want the state to protect these wild horses and find who is needlessly killing them in the forest. It is a danger to anyone who goes out in the forest. Someone is out there shooting innocent animals, what happens when someone gets hurt.
