Comments: I would like to voice my objection to this project. The Sandia Mountains are a finite resource which are already being utilized for commercial gain. The increase in traffic and the disturbance to the present setting and destruction of existing natural resources will create a burden on an environment that is already being used for activities other than outdoor recreation (i.e. fine dining restaurant, tramway, ski area). These attractions, while enjoyable, are inaccessible to people who do not have unlimited disposable income. Let the rest of us enjoy nature without having to pay more than the required USFS fee. NO to the coaster.
