Comments: Please reconsider this proposal to allow the motorized travel corridor near our protected non-motorized publicly owned lands. I believe allowing motorized access as laid out in the plan will hinder many of the goals of the U.S. Wilderness act of 1964 as well as the Wild and Scenic Rivers act of 1968. We should all value lands and "an area[s] where the earth and its community of life are untrammelled by man, where man himself is a visitor who does not remain." Please do not allow the quite solitude I find in protected non-motorized areas be infringed upon.
