Comments: I do not agree with proposal to allow increased motorized access within the Rapid River drainage and contiguous to the wild & scenic corridor. This will effectively make the single trail along the river the nonmotorized access, and increase the likelihood of unintended (or willful) motorized violations. I support multiple use on public lands. There are many thousands of acres of beautiful public lands with motorized access in this region. I do not see a compelling reason to fundamentally alter the recreation experience in the pristine Rapid River drainage. Thank you for your consideration.
