Title:

Comments: Please do not allow ATVs into the Rapid River Corridor! I have hiked and backpacked in this area for over 20 years. It is an area where I always enjoy wildlife and serenity. Precious habitat is always being threatened. I do not support giving over any area to the destructive and degrading impact of wheeled and mechanized vehicles.

Please respect and protect our wild lands for the sake of the wild animals and the plants who find their homes in these ever diminishing regions.
