Comments: Having lived in this area for the past 25 years, the horses have brought us much pleasure. The current area proposed takes everything out of the Overgaard area where the horses have lived for years. The area needs to include the FS roads 50 51,124, and 125 up to and including 166 and 300. The eastern boundary to be FR 144. Looking at your past maps you will see many horses were spotted in that area. People drive those roads specifically to see the horses along that route. Residents love seeing the horses behind their homes. Trail riders enjoy them along the trails as they explore with their ATVs and UTVs. Since food and water can be dropped for them in the Heber area, the same can be done for Overgaard. Heber-Overgaard is the way the towns are referred as one entity. Therefore the horses are Overgaard horses as well. The horses increase visiting and revenues in the H/O area.

Control of reproduction can be with birth control injections. Perhaps this can be supported by donations requested of visitors and residents. Or the establishment of HEBER-OVERGAARD wild horse society run by volunteers.

Create a roadmap of where visitors will be most apt to see them. Distribute the maps at the Chamber of Commerce. This would keep people on established roadways while allowing them to enjoy our forests and wild life.
