Comments: I am writing in response to the proposal to clearcut 1800 acres near the North Fork Nooksack.

Please conduct a thorough environmental impact survey rather than choosing to clearcut this parcel.

In my opinion The Forest Service should not be clearcutting in the 21st century. Clearcutting affects climate change, salmon habitat, landslide/erosion, water flow, and so much more. As land and water stewards, I urge the Forest Service to find more sustainable alternatives.
