I object to the expansion proposal for heli skiing in areas 9,10,11,12,13.

We have had no conflicts with local residents regarding heliskiing up to this point, but I think we would with this proposal. These areas are used to recreate and hunt without helicopters.

Goats and subsistence moose live in this area. Previously no heliskiing was permitted for wildlife protection , especially goats.

Energetic locals use these areas to ski, snowboard , and hunt: NO HELICOPTER NEEDED. Expansion not needed and would lead to conflicts with local users.

Marvin VanDenBroek, subsistence hunter in this area
