Comments: I am opposed to the building and operating of the Mountain Coaster project. There is already too much vehicle traffic on the only road up there. Assuming the Tram will be the major access is just a dream that will surely be changed when people realize the expense. I hate to see pristine areas destroyed to attract more people who are not attuned to nature, not there for nature and will be a danger to themselves and the land. Fire danger will increase, destruction will increase, congestion will become impossible and there is already not enough parking for the people who suddenly discovered the mountain during the Pandemic. This seems like a terrible idea for everyone but the company that plans to make money off it.
