Comments: I am nineteen years old which means that I love myself a cool and fun roller coaster; however, considering the harmful and inconvenient effects that this coaster will have, I do not support the build and keepsake of this mountain coaster. The building of this coaster will add harm to the innocent wildlife and beautiful nature in this area. I am also concerned about how this coaster will increase our risk of wildfires. Not only will this coaster harm the environment, this coaster will also negatively affect the daily lives of the community by creating heavy traffic that could be avoided. In the end, the idea sounds fun until you look at the unfortunate aftermath that this project could bring.

Sincerely, Cristina S.
