Comments: Having made many backpacking trips into Rapid River, I believe that allowing motorized vehicles into the area would be a detriment to the peace and beauty there. Putting signs up doesn't always stop vehicles. I have been on multi-use trails and the ones allowing motorized vehicles always seem to have more garbage and graffiti, not to mention the damage to trails from the irresponsible ones. Please keep the Rapid River area pristine and open only to hikers, backpackers and non-motorized vehicles.
