First name: Amy

Last name: Hulshoff

Organization:

Title:

Comments: This is a terrible idea. A mountain coaster, are you serious?! Can we somehow manage to not intentionally cause further damage to outdoor spaces that don't belong to us? It's trashed enough as it is with all the tourist garbage and human waste and social trails that divert from the originally maintained trails. This will ruin the Sandias and set the precedent for further entitled damaging projects in the future.
