Comments: I am concerned about the projected plan for a mountain coaster at Sandia Peak Ski Area. I am against its construction for the following reasons:

- the Sandia Wilderness is a small and sensitive area where wildlife has few alternatives
- our Wilderness areas need to be protected from nearby development which threatens their wildlife and forests
- the Cibola National forest in this area is also small and unable to support additional development of this type in a sustainable way
- increased auto and foot traffic in this area would have a negative impact on the surrounding ecosystem
- this entertainment structure does not contribute to peoples' meaningful interaction with the wilderness/nature which promotes preservation and sustainability
