Comments: Please reconsider this and the effect it would have on the communities and land in this area. New Mexico is small, New Mexico is sacred. We deserve beautiful untouched land. We don't want crowds and people disrupting the peace of the animals and the communities surrounding this TERRIBLE idea. I grew up in the mountains, the Sandias were my playground. I learned about the animals, the plants, the sounds of nature. We hiked and ran free, we never needed a rollercoaster to enjoy this land. Please do not do this.
