Title:

Comments: Please do not build an attraction on this beautiful mountain. I grew up here and we need to preserve as much of the natural elements here as possible. People are welcome to go to town for rides, but the mountain should be reserved for nature and it's beauty. Increased traffic will not only harm the wildlife of the area, but will also mean our roads will wear faster, and our limited resources up here will be depleted more quickly. Myself and many other locals of the east mountains agree this will do more harm than good and ask you to not build this ride here.
