Comments: To Whom it May Concern ~

Do we really need another entertainment on our mountain? Who will it benefit, really? Mostly it will benefit the developers, who are always out to make money. The Tram is an already existing way of transporting people to the crest and back again. There is also the Crest Road on the other side. Please, let's leave it at that and not encroach on the rest of the untouched beauty of this wilderness area.

Thank you for your attention.
