Comments: To Bryan West, Project Manager, Cibola National Forest, USFS,

This public comment is in opposition of the proposed project, "Sandia Peak Ski Area Mountain Coaster #56985."

The decision not to consult the Pueblo people as well as the EPA because it is "believed" that this will be low impact is irresponsible beyond belief. The mountain should not be destroyed and turned into a metal eyesore seemingly for only its own end. The forest service should be more interested in protecting the land from this sort of uncaring development, and the project should be rejected.
