Comments: I am writing in opposition to the proposed Mountain Coaster on the Sandia Ranger District of Cibola National Forest and National Grasslands(CNF). The project ignores the long-term environmental impacts that it would have on the Mountain, Forest area, and Watershed. The coaster would also significantly disrupt the Wildlife in the area. Most importantly, the Mountain is sacred and should be treated with the greatest respect. It is given these facts that I strongly oppose the development of a Mountain Coaster.
