First name: Tina

Last name: Arons

Organization:

Title:

Comments: Please do not allow this roller coaster. Adding things like that will destroy the natural beauty of the place. It will be hideous to look at, and it is not preserving the land. Be a good steward and take care of the land and it's native people. These lands are sacred and what y'all are proposing is super not cool. I will refuse to support any organization or institution that is a part of this. What a disgrace to National Parks. You might as well litter and build structures on all of the beautiful spaces in the world. Turn the most majestic places into a cheap thrill so that someone can turn a profit. We're all doomed to live lives without natural beauty, and this type of permit/use is one more nail in that coffin.
