Title:

Comments: Dear Mount Baker Ranger District,

Because project 58218 proposes clearcutting, I am against this project. We should be focused on cultivating healthy forest and river habitats without clear-cutting. There has already been too much clear-cutting of precious habitats and profits should not come before our dwindling forests.

Also, the Canyon Creek Watershed has already been adversely impacted by logging, as clearly documented by the USFS Watershed Analysis for the basin and clearcut-plantation forestry degrades water quality and destroys salmon habitat. Salmon and other creatures are already suffering. Let's do our best to rebuild their homes so that they can thrive.

Kindly,

Jaclyn Parton
