Title:

Comments: I write in opposition the Mountain Coaster project #56985. The Mountain is sacred to many Indigenous people including the Pueblo of Sandia. Our people continue to use the resources of this sacred Mountain in the most respectful and peaceful way. The Mountain is our "church" and we honor and respect it as so. Adding another recreation attraction to the Mountain could affect the area negatively such as depletion of natural resources and disturbances of wildlife habitats. Our Mountain should be preserved and respected.
