Comments: I want to register my major opposition to this "multi seasonal" idea for tram/ski area recreation. The cost and impact on the ski area and mtn top are far more negative than any potential revenue to be generated, i believe and the noise and visual are quite appalling to those of us who hike, ski and use the tram and ski lift in the summer to hike and explore.

I have lived in Albuquerque over 50 years and think this is one of the worst out door recreation ideas i have ever heard of.
