First name: Mary

Last name: Harbert

Organization:

Title:

Comments: This is incorrigible. Sacred land should not be used for such brash and frivolous quick buck schemes at the cost of our environment and in the face of whose land was so brutally and cruelly stolen and mutilated. Is this necessary? Does it help us appreciate nature and respect our fragile ecosystem? Does this set a precedent of future respect for our indigenous peoples? If not, ask yourselves why you feel this is necessary.
