Comments: I am a guest of the Pueblo of Sandia, as I live on their traditional, unceded lands in Albuquerque. As a guest, I oppose the creation of the Sandia Mountain Coaster. The creation of such a thing on their sacred mountain would be deeply disrespectful to the people of Sandia Pueblo, who have cared for this mountain and the surrounding land for time immemorial. The mountain is irreplaceable to the Sandia Pueblo and their religion- they are all tied together. As guests on this land, we cannot tell them to find another mountain. It would be like asking Catholics to allow someone to paint over the ceiling of the Sistine Chapel. The Forest Service can find another place to put this attraction, but there is only one Sandia mountain range for the Pueblo of Sandia.
