Sandia Peak Ski Area Coaster

Absolutely not. I am in strong opposition to the construction of the Sandia Coaster in the sacred mountain area of the Pueblo of Sandia. We must put a stop to putting outdoor construction for recreational purposes before the communities of the Native folks whose ancestral land it is. Further, we have seen the long-term damage to flora and fauna, water, and earth when an influx of construction and tourism overtakes these mountainous regions. This project must be stopped.
