Title:

Comments: I am in opposition of the proposed Sandia Peak Ski Area Mountain Coaster Project. An Environmental Assessment or Environmental Impact statement is needed. I believe this project will harm the wildlife and the surrounding environment due to increased traffic, noise pollution, and litter. The Sandia Mountain is sacred and belongs to the Pueblo of Sandia, the mountain was taken from them in the 90's due to people wanting access for outdoor recreation. Respect for indigenous people and their land should come first.
