Title:

Comments: This is a sacred mountain to the Pueblo people- have elders been consulted to weigh in on this project? Is the Forest Service planning on conducting an Environmental Assessment or making an Environmental Impact Statement? I can't imagine that a large scale project like this would NOT make an impact on the surrounding environment. Increased traffic, noise pollution, litter and other contamination are the unfortunate by-products of increase human interaction with nature. How will the additional traffic and contaminants affect the watershed and the wildlife in the area?

Sincerely,

a concerned citizen.
