Title:

Comments: This is a sacred mountain to the Pueblo people- have elders been consulted to weigh in on this project? Is the Forest Service planning on conducting an Environmental Assessment or making an Environmental Impact Statement? I can't imagine that a large scale project like this would NOT make an impact on the surrounding environment. Increased traffic, noise pollution, litter and other contamination are the unfortunate biproducts of increase human interaction with nature. How will the additional traffic and contaminants affect the watershed and the wildlife in the area?

Sincerly, a concerned citizen.
