Comments: I absolutely oppose this ludicrous proposition for a "mountain rollercoaster" - why?

Why force the wild life of that area to move? Why tear down MORE trees? All for a bit cash?

Ludicrous.

You'd rather put hundreds of thousands of dollars into a ridiculous and poor idea for attracting tourists instead of actually putting money and actually helping the communities across New Mexico, more specifically: black, indigenous, people of color, low-income families/people, the homeless population.

Stop ALL further production or planning of this, it is absolutely opposed not only by me - but the free people have of NM - regardless of race, gender (or lack there of), religious background, or social status.
