Comments: This is such a horrible idea. Leave the mountain alone. On that note give the mountain land back to the rightful people it belongs to who will actual take care of it and stop trying to waste money on projects that don't benefit anyone except capitalists. This project won't benefit the people of Albuquerque. We want our money spent on education, programs benefiting the poor and unhoused and more funding for the arts. We want programs benefiting native and POC communities that are undervalued and neglected. We do not want you to desecrate the mountain with a playground for rich tourists.
