Comments: This project should really be reconsidered for a multitude of reasons.

First and foremost this coaster will generate more traffic, garbage/waste and noise pollution to an area locals go to, to get away from those very problems.

This coaster will fragment our wilderness areas further!

and most importantly, this will reduce the ski area, by 2 runs, which will affect locals. This sounds like a way to attract non locals/tourist to the area. I am avidly against this.
