Comments: Sandia Peak Ski Area Mountain Coaster #56985

Enough prioritizing recreation over the rights of Native people and their right to access their sacred lands. I read today, per the National Forest Service, that a roller coaster would cause "a minimal amount of disturbances" to the area--what a joke! Publishing the names of white residents living near the Sandias who support the project is doing absolutely nothing to help this case, either; pretending that only Native people are opposed to this project is absurd, and there are plenty of white New Mexicans (myself included) who GREATLY OPPOSE a loud, damaging, traffic-causing hub for litter and pollution on Sandia Peak. A mountain roller coaster is an AWFUL idea and everyone I've spoken to in Santa Fe agrees. Find another way to make revenue for the state, and Leave the Sandias alone!
