Title:

Comments: A mountain coaster would be terrible for sandia. The area is already disturbed enough as it is. We should be promoting other outdoor activities such as hiking, biking, snow shoeing, and skiing. A coaster would be a huge eye sore in such a beautiful area, as well as disturb wildlife in the area. Sandia is also a sacred mountain to native peoples, and we have already trampled on it enough. Don't let the sandia mountain coaster happen.
