Comments: I am writing to oppose the proposed "Mountain Coaster Project" in the Sandia Peak Ski Area. This project is a commercial development that is unnecessary given similar amusement park attractions in Albuquerque. While this kind of development in the National Forest was seen as appropriate 50-60 years ago, it no longer fits with the public attitudes concerning the use of National Forest Land. It will increase traffic and noise and inevitably create spillover effects that impact thousands of people who now use the forest for nature viewing, peace and quiet.
